

HOME CARE **PROTOCOL**

- 1 Make sure your hands are clean before starting.
- 2 There is no need to use a glove for this application. Keep cotton swabs in your bag with the Home Care serum and a tweezer. The serum will stain your fingers yellow.
- 3 2 Simple Steps... Tweeze the hair and ensure it pulls out with the root. Take a small drop of the Epilfree Home Care serum and apply it immediately onto the follicle where the hair was pulled out, wait 3 minutes and apply again.
- 4 Repeat the treatment as and when needed.

USED IN CONJUNCTION WITH YOUR PROFESSIONAL FACIAL TREATMENTS
